## **REACH**

Dear Sir or Madam,

With this info sheet we would like to inform you about the activities of our company regarding the new European chemicals regulation REACH.

REACH (Registration, Evaluation and Authorization of Chemicals) became effective on 1<sup>st</sup> July 2007 in the European Union. The realisation of REACH has a high priority for us and we will advocate the maintenance of the current product range. Due to the long transition period of 11 years at the moment no one can assess not to mention assure, if the passage of REACH will have concrete effects to the availability of several raw materials.

The preparations we manufactured cannot be registered or preregistered. Our raw material suppliers are responsible for registration of the substances. However, we permanently are in contact with them in order to assure the registration respectively the preregistration of our raw materials. Most of our chemical substances in our raw materials have already been pre-registered by our upstream suppliers. However up to now, pre-registered numbers have not been published. Concerning the actual registration our suppliers explain us theirs registration intentions without making any binding statements. As the deadlines are until 2010, 2013 and 2018 we can make at the latest a definite statement at that time.

Within the framework of REACH it is very important for us to receive information regarding the use of the products we deliver to you in order to communicate you the necessary risk management measurements for the safe use of our products according to REACH. We will start obtaining this information in the near future.

Concerning the use of substances of the candidate list SVHC (substances of very high concern) in annex XIV of the REACH regulation we can confirm you that these substances are no constitutional components of our formulations. The material safety data sheets we establish correspond to the appointed requirements in the REACH regulation.

Our contact person Ms. Dr. Richter is pleased to answer your questions regarding REACH by calling 09163 9992-40 or sending an e-mail to [j.richter@weilburger-graphics.de](mailto:j.richter@weilburger-graphics.de).

We remain with the best wishes for a good cooperation in the future.

**WEILBURGER Graphics GmbH**
