

Press statement – for immediate release

WEILBURGER Graphics continues to rely on training and ongoing growth

Gerhardshofen, Dec. 1st 2008 – From the very beginning, WEILBURGER Graphics GmbH, with its registered office in Gerhardshofen, has relied on successful personnel management and ongoing growth. The company also takes the training of new skilled workers with a view to the long term very seriously, and this is illustrated not least by the high levels of qualification achieved by young up-and-coming staff members trained in-house. A greater-than-average number of WEILBURGER Graphics trainees regularly complete their training as the best in their class. Almost all of them remain with the company.

As from this year, the new trainees are:

- *Andrea Pinsenschaum*, industrial business management assistant
- *Denise Mertins*, industrial business management assistant
- *Tobias Zeihe*, laboratory assistant for coatings
- *Bastian Kunesch*, chemical production specialist
- *Jochen Weghorn*, chemical production specialist

The following trainees have completed their training this year with distinction:

- *Felix Lucht*, industrial business management assistant, best of rural district Neustadt a. d. Aisch / Bad Windsheim
- *Andrea Öchsner*, laboratory assistant for coatings, best of her year in Central Franconia
- *Martin Rosenzweig*, first trained as a laboratory assistant for coatings, best of his year in Germany, then attended Stuttgart's College of Coatings Technology, completing his training there as a state-certified paint and coatings technician with distinction

In addition to the above, new jobs are created regularly as WEILBURGER Graphics continues to grow. Thus it was possible to take on some additional employees yet again, only a few weeks after the staff reshuffle and expansion in September this year.

New employees of WEILBURGER Graphics GmbH:

- *Stefan Sobotta*, domestic administration
- *Bastian Schäfer*, in-house technical service
- *Marion Zelgy*, export administration
- *Olaf Hertel*, export administration
